Hi Sandeep,

Please setup https://www.pnlmanager.com/common-widgets/- In PNLMANAGER VPC which would be served from repo git@bitbucket.org:girnarsoftware/girnarsoft-insurancedekho-commonwidgets.git. Detailed instructions below.

Server requirement (preferably existing node server)

1. node
2. port 3773

Additional Setups

1. ProxyPass http://<172.x.x.x>:3773/ https://www.pnlmanager.com/common-widgets/- In PNLMANAGER VPC

Jenkins Command

1. git clone git@bitbucket.org:girnarsoftware/girnarsoft-insurancedekho-commonwidgets.git
2. cd to project root
3. npm install
4. npm run build
5. sh forever_restart.sh
